WOMEN'S ALL-NEW HEATED GEAR

Designed with the Nanowire™ System

Our Women's Heated Gear offers a completely re-engineered heating system that integrates Nanowire™ technology and a GHC High Density Heat® System.

- | Styled specifically to fit women riders
- | Strategically placed for uniform heat coverage where you need it most
- | Requires less amperage than ever before
- | Lighter wires and wire channels keep you comfortable
- | Power plugs and wire casings designed to stay pliable in below-freezing temperatures

H-D Duel Control Thermostat or Portable Thermostat allows you to regulate the heat output. Thermostats replace the power switch.
