Windshields & LED Headlamps

A. QUICK-RELEASE SUPER SPORT WINDSHIELD

Reduces the pounding of wind and shower of bugs but keeps the wind-in-the-hair feeling. Ideal for a cool morning ride, the sleek profile of the Super Sport Windshield hugs the front headlamp for a sporty look. The windshield mounts to the fork tubes with elegant die-cast lever locking clamps, so the windshield does not require any "leave-behind" docking hardware. You get quick on-and-off convenience and a clean, custom look. No tools are required and the kit includes everything needed to install the windshield.

57400192 Light Smoke.
Fits '15-later XG models (except XG750A). Installation requires removal of Original Equipment headlamp visor. Models equipped with a front mounted license plate require separate purchase of License Plate Bracket P/N 67900227. Windshield dimensions: Overall height 25.0"; width – 20.1".

B. DAYMAKER® LED HEADLAMPS

Cut through the night. Harley-Davidson® LED Lamps are brighter and whiter in color and provide a superior light pattern over standard incandescent lamps. Compared to the yellow light of a traditional halogen bulb, the LED lamp produces a "Daylight Color Impression" that appears more natural to the user. Headlamps feature horizontal "D-shaped" lenses that focus light into a pool in front of the motorcycle and separate high beam and low beam projector lenses that provide a focused beam of light ahead. Lamps are available in your choice of brilliant chrome or gloss black background to match your styling direction. The solid-state LEDs are designed for long life and the shock- and vibration-resistant lamp assembly mounts into existing light housings. Installation is quick and easy and the plug-in lamps connect to the factory headlamp wiring. The LED lamps are DOT and ECE compliant.

Fits '15-later XG models.

C. CAFÉ SOLO SEAT

C. CAFÉ SOLO SEAT

There's something about the placement of the rider that makes the Café Solo Seat special. The one-up design and the high back pad hold the rider in place and provide a direct connection to the bike. You sit "in" the bike and your hands and feet reach naturally to the controls. The low-slung pad, narrow nose and the tapered tail enhance the bike's sporting profile and pay homage to the heritage of the iconic Café Racer style.

52000168

Fits '15-later XG models (except XG750A). Seat width 11.25".

D. REACH™ SEAT

Designed specifically for riders requiring a close-to-the-bar riding position, this Reach Seat is shaped to place the rider in a comfortable and confident relationship to the hand and foot controls. The seat moves the rider approximately 1.5" lower and 1.25" forward and the 1.25"-slimmer front profile brings the legs closer together for an easier reach to the ground at a stop. The Reach Seat features a stepped profile that keeps the rider from sliding back during acceleration.

52000123

Fits '15-later XG models (except XG750A). Seat width 10.25"; passenger pillion width 6.75".

E. TALLBOY™ SEAT

The correct riding position can help a tall rider sit comfortably on the bike, and avoid leg cramps and back strain during a long day in the saddle. For riders with a longer inseam, a Tallboy Seat will put you on the road to fatigue-free riding. Designed to move the rider 1.25" up and 2.5" back from the stock seating position, a Tallboy Seat can eliminate the "knees-high" riding position and effectively places the body for a natural arm and leg reach to the controls.

52000124

Fits '15-later XG models (except XG750A). Seat width 10.5"; passenger pillion width 7.5".

D. BRASS COLLECTION

The authentic alternative to the typical chrome-covered or blacked-out look, the Harley-Davidson® Brass Collection delivers a warm, handcrafted look to your custom ride. These minimalistic "living finish" components make a garage-built styling statement and are the ideal addition to your stripped-down bobber or café motorcycle. Artistically manufactured from solid brass, these components feature a natural antique finish that will age and patina when exposed to the elements. Unlike bright polished and plated brass trim, these heritage-finished components are subtle additions to your ride and don't compete for attention with the rest of the bike. Brass Collection components are factory treated with wax to slow the aging process, and are shipped with cleaning and care instructions.
